**BURNS AND SCALDS!**

The NZ Wound Care Society, supported by ACC, presents New Zealand's Wound Awareness Week - **26th July - 1st August 2021**

Wounds Awareness Week is an exciting opportunity to reach out to all New Zealanders for the first time, increasing awareness of "Burns and Scalds" "Who is at risk", and strategies to manage these wounds if they fail to heal. Additionally, this week is an opportunity to provide education and information to those working across a variety of health disciplines; including general practice, aged care, community and DHB services and allied healthcare professionals, and many others, contributing to evidence-based practice, skill and knowledge development, ultimately contributing to positive outcomes for individuals.
