

Solventum Education Dinner

On April 1st, 2024, 3M Health Care became Solventum, an independent healthcare company dedicated to delivering better, smarter, safer healthcare to improve lives.

Protecting skin: The new wave of pressure injury technology.

Speakers

Professor Fiona Coyer
PhD, MSN, GCertAdEd

Fiona is the Head of Discipline – Nursing, School of Nursing, Midwifery & Social Work at the University of Queensland, Brisbane, Australia. She has published over 200 peer reviewed publications plus 7 book chapters and serves on the editorial board of four international journals.

Nicole Lapanaitis
BSc.Math (Microbiology & Immunology)

Nicole is an Advanced Application Engineer in the MedSurg Business at Solventum. She is an active member of ISO, participates in working groups, and has contributed to the revision of A Practical Guide to Decontamination.

Date: Thursday, 21 November 2024

Time: 6 PM – 9 PM

Venue: Wintergarden Pavilion
'The Nikau Room'
20 Kiosk Road
Auckland Domain, Auckland 1010

Join us for an informative dinner as we delve into the current research and evidence-based practices for preventing medical device-related pressure injuries. Prof Fiona Coyer's presentation will be virtual. We'll also examine the complications associated with inadequate nasogastric tube securement and the clinical challenges posed by existing securement devices. The evening will conclude with a Q&A session.

Learning Objectives:

- Discuss clinical evidence on device-related pressure injuries (DRPI) burden in clinical setting
- Identify the DRPI risk factors and common issues in the ICU
- Define an evidence-based care bundle for DRPI prevention
- Explain the science behind the 3M™ Nasogastric Securement Device
